

Puresense Medical
Trusted
Quality & Efficiency

About Us

We are working with full force to protect our public health and to control epidemic diseases.

We work hard to protect our public health with medical products and to control epidemic diseases. We offer all the protective materials and disinfectant products you need in the medical industry. It is our priority to deliver the medical products with the features you want in the fastest time for your personnel health and work safety. PureSense is always with you to meet your institutional needs with medical materials supplied by our experienced staff. Domestic and international import / export procurement services are provided by our company.

Non-Woven PSM-001

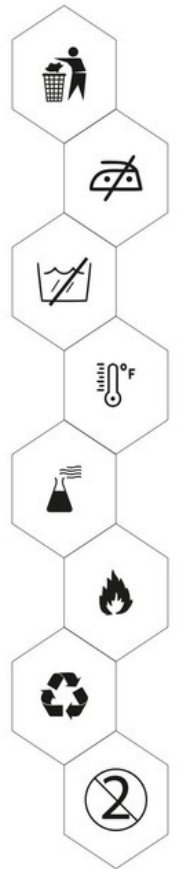

Turkey
Discover
the potential

FEATURES

Polypropylene(PP) Hydrophobic UV Resistancy Flame
Reterdant

Spunbond is a polypropylene raw material
produced fabric type. In many different applications in
the textile industry is used. Non-woven or as a felt-
like de $\square$ nable. It can protect its texture up to 90 C, water
and it is not affected by moisture. 8 - 200 according to the
desired thickness They can be produced in gram weights.
